R. ANANTHA LAKSHMI

AI/ML & Software Development Enthusiast

ananthalakshmirayi88@gmail.com | github.com/ananthalakshmirayi88-commits | linkedin.com/in/anantha-lakshmi-rayi-0a02b4378

PROFESSIONAL SUMMARY

B.Tech CSM student with hands-on experience building AI/ML and Python-based applications. Interested in Artificial Intelligence, Machine Learning, Software Development, and intelligent web applications. Experienced in developing practical projects involving emergency response, robotics, computer vision, predictive analytics, and conversational AI. Seeking internship opportunities to apply technical skills and contribute to real-world software solutions.

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, HTML, CSS
AI/ML	Machine Learning, Regression, Classification, Decision Trees, Random Forest, Naïve Bayes, Logistic Regression, K-Means
Libraries	NumPy, Pandas, Matplotlib, Scikit-learn
Web	Flask, REST APIs, Responsive Web Development
Tools	Git, GitHub, VS Code, Google Colab
Core	Data Structures & Algorithms, OOP, DBMS, Problem Solving

PROJECTS

Agriculture Rover

Python | IoT | Sensors | Embedded Logic | Automation

- Developed an automated agriculture rover prototype for crop field inspection and soil monitoring.
- Integrated sensor modules for real-time moisture detection and environmental data collection.

Smart Warehouse AI

Python | AI/ML | Computer Vision | Automation | Flask

- Designed an AI-powered smart warehouse management system for automated inventory tracking.
- Utilized computer vision and machine learning logic for item categorization and stock level monitoring.

AI-Powered Emergency Response System

Python | Flask | AI/ML | HTML | CSS | JavaScript

- Developed an AI-powered dashboard concept for analyzing and managing road accident emergencies.
- Designed features for accident detection, severity analysis, location information, and emergency resource identification.

AI Smart Traffic Monitoring System

Python | AI/ML | Computer Vision | HTML | CSS | JavaScript

- Developed an AI-based system for analyzing traffic videos with vehicle detection and counting.

Ice Cream Sales Prediction

Python | Pandas | NumPy | Scikit-learn | Flask

- Built a machine learning application applying Linear Regression to predict sales using historical data.

AI Assistant / Chatbot

Python | Flask | JavaScript | Groq API

- Developed a web-based conversational AI application integrating an AI API for rapid query handling.

EDUCATION

B.Tech — Computer Science & Engineering (CSM)
KIET College, Kakinada | Currently Pursuing 3rd Year | CGPA: 7.85

Intermediate
KSN Junior College | 735/1000

CERTIFICATIONS

- IBM SkillsBuild — Enterprise Design Thinking Practitioner
- EY Certificate
- Infosys Springboard — Python Certification

CAREER INTERESTS

Artificial Intelligence | Machine Learning | Python Development | Software Development | Data & Analytics
